Syllabus Course Number and Title: MSCD667 - NoSQL Database Concepts using MongoDB Course Description: The MSCD667 NoSQL Database Concepts using MongoDB course provides students the necessary skills to develop applications using MongoDB Topics include

Mongo Database - s3-ap-southeast-1.amazonaws.com

- Data size in MongoDB is typically higher due to eg each document has field names stored it
- less flexibility with querying (eg no JOINS)
- no support for transactions - certain atomic operations are supported, at a single document level
- at the moment Map/Reduce (eg to do aggregations/data analysis) is OK, but not blisteringly fast

A Collaborative, Multinational Cyberinfrastructure for Big ...
